LIGHTHOUSE OF ALEXANDRIA

Technical File Legendary Artistic Visions

WINDOWS TO INFINITY

By Expotour Itinerant

What will the visitor see?

Each of these seven pieces is an individual work of art, a detailed journey into each of the wonders of the ancient world. Though smaller than the Monumental Visions, these artistic representations are full of visual richness and spectacularly immersive perspectives. Here, visitors lose themselves in an infinity of details: every column, every relief, and every scene is created to be observed with calm contemplation.

There are no moving light effects: the lighting is fixed, allowing the artistic splendor to speak for itself. Each piece has its own general audioguide covering the entire collection. In addition, a narration by the author, an art critique, and a video encompassing the whole set are included.

In each of these seven visions, the visitor will find an explosion of art and storytelling that invites them to contemplate the majesty of the ancient world from a unique perspective. Each wonder, presented individually, is a window into history and human creativity, allowing each viewer to discover and appreciate the artistic details that make these works truly special.

Author's Opinion

This series allowed me to immerse myself in the most epic myths and legends of humanity. The Seven Wonders of the Ancient World offered me a unique opportunity to explore the past and add my own personal touch. Each of these Visions combines history and creativity: they connect the viewer with the great achievements of human ingenuity.

On the island of Pharos, the majestic Lighthouse of Alexandria illuminated the waters of the Mediterranean, guiding sailors through the night and storms. It was not just a lighthouse: it was an engineering miracle that defied the waves and the wind; a manifestation of human control over nature. Its light shone like a beam of hope and security, a testament to the fact that human ingenuity could illuminate even the deepest shadows.

EXPOTOUR
ITINERANT

Edition **The Experience**:
Large modules designed exclusively for spacious exhibition areas.
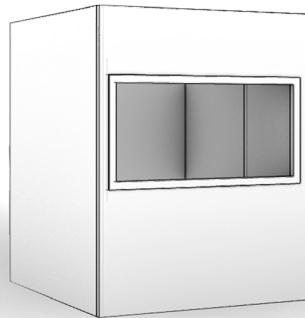

The Experience | Complete module

The Experience | Complete module
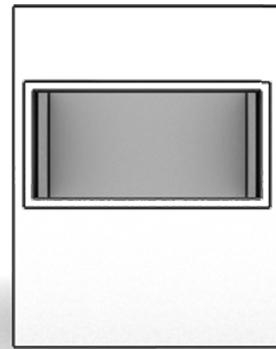

Technical Specifications

Module dimensions	2,20x2,40x2,57 m		DMX LED lights	Included
Indivisible set	7 modules		Amplified audio	No
Total height with bases	3,10 m		Screen	1 for the set
Total surface area	2,20x2,40 m		Graphics	1 ud
Total weight	200 kg		Front sign	Included
Weight per m²	50 kg		QR code plate	Included
Electrical power	1 Kw		Smoke extraction	No
Automation	No		Water and drainage	No

Technical Accompaniment

Audio guide	Included
Video guide	Included
Music	Included
Video	Included
QR codes	Included
Travel guide	Included

Artistic Accompaniment

Characters	No
Narrative	Collective
Final messages	No
Author's opinion	Included
Critical opinion	Included

Suitable for:

Children	Yes		Middle age	Yes
Adolescents	Yes		Seniors	Yes
Young adults	Yes
