

# LIGHTS OF THE PAST

Technical File Monumental Vision

**WINDOWS  
TO INFINITY**

By Expotour Itinerant

## What will the visitor see?

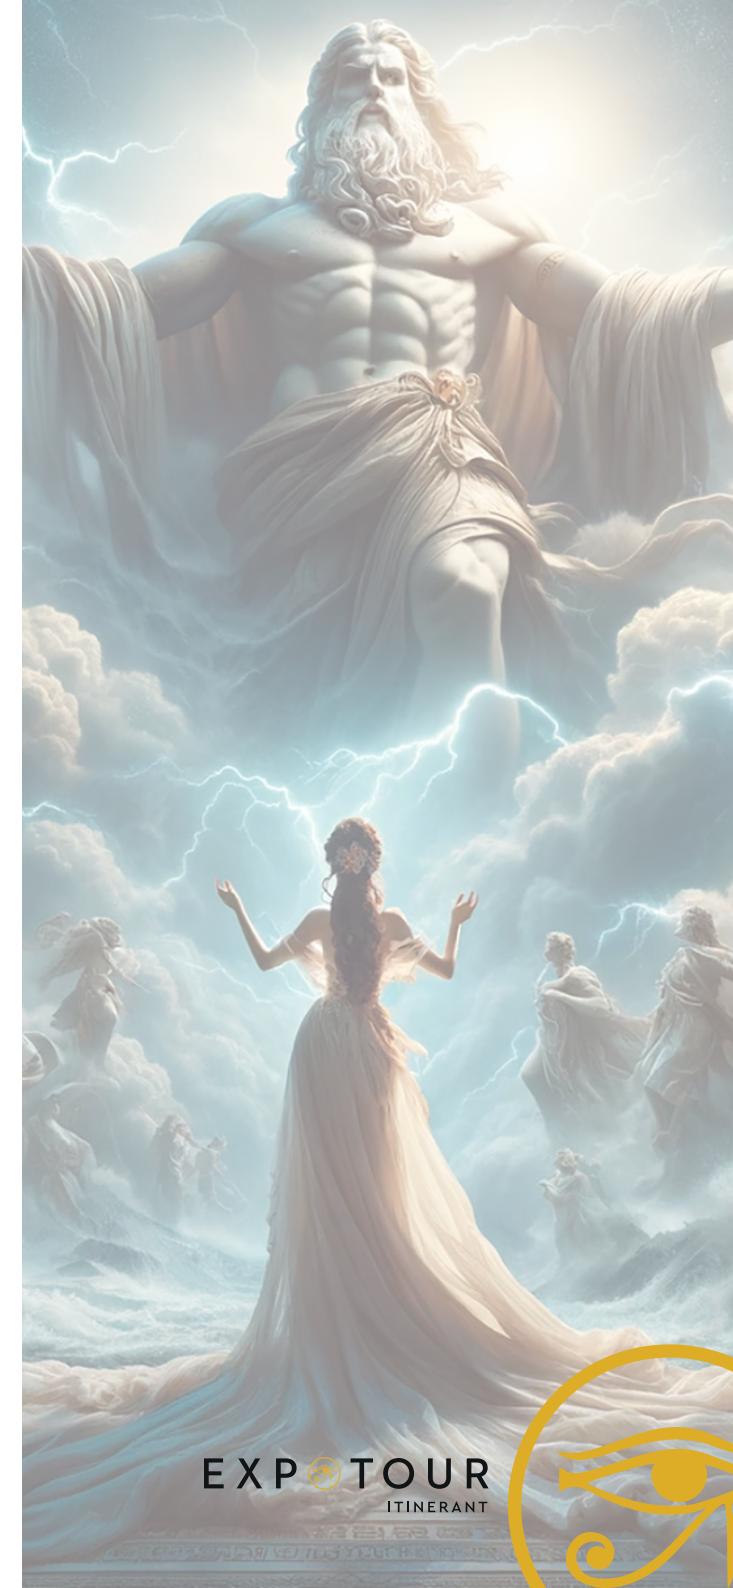

The visitor will peer through a window to discover a monumental diorama that brings the seven wonders of the ancient world to life: before their eyes rise the Colossus of Rhodes and the Lighthouse of Alexandria, dominating the sea; the Mausoleum of Halicarnassus with its intricate reliefs; the Temple of Artemis with its imposing columns; and the Great Pyramid of Khufu next to the majestic Sphinx. Further beyond, the Hanging Gardens of Babylon display their lush vegetation suspended in midair, while the Temple of Zeus reveals its grandeur in marble and gold.

Throughout the experience, each wonder is highlighted with an array of lights, while an immersive narrative guides the visitor through History. Gradually, the monuments begin to fade, representing how time has turned them into ruins. In the end, only the Great Pyramid remains standing, as an eternal symbol of permanence and mystery.

The spectacle is enhanced with physical special effects: gusts of wind, fog, micro-rain, and a light show that make the scene vibrate, offering the visitor the impression of being there. These effects can also be set up outdoors, so that even outside, the audience can experience the sensation of wind, rain, and the force of nature firsthand.

Next to this Monumental Vision, a screen projects a video with original narration and music. Visitors can also scan a QR code to access more content in various languages: an audio guide, the history of the seven wonders, artistic critiques, and the author's opinion.

The final message invites reflection on the fragility and greatness of the human legacy: everything we build can disappear, but the traces we leave in history continue to shine as lights of the past.

# WONDERS OF INFINITY

## Lights of the Past

Throughout history, humanity has erected monuments that come close to the divine. These seven wonders of the ancient world are a testament to human greatness in a time when ingenuity and faith came together to create works that defied the centuries.

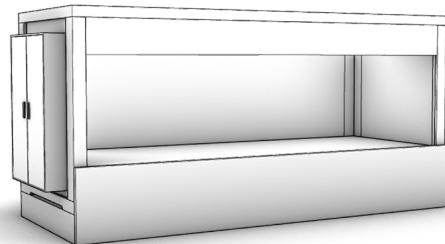

Each of these wonders echoes the stories of men and gods, the dedication of entire civilizations, and the desire to leave an eternal mark. From the Hanging Gardens of Babylon to the imposing Pyramid of Khufu, each wonder speaks of a world where the human and the divine were intertwined.

It is a journey through greatness, imagination, and the legacy of humanity, inviting us to contemplate what we were capable of building when we sought to reach eternity.
