

THE FINAL COUNTDOWN

Technical File Monumental Vision

WINDOWS
TO INFINITY

By Expotour Itinerant

What will the visitor see?

The visitor will peer through a window to discover a diorama of great emotional impact, where humanity faces its darkest hour.

High above the scene, the sky trembles with the arrival of colossal alien ships, advancing with calculated movements, dazzling light effects, and immersive sound. From them descend the invading extraterrestrials, deploying war robots and futuristic weapons that leave destruction in their wake.

Earth appears devastated: buildings are reduced to ruins after the initial airstrikes, twisted car wrecks are scattered across the streets, smoke is rising like scars from a nuclear bombardment. The scene is filled with drama—men, women, and children running in desperation, trying to escape an uncertain fate. It is a war-torn landscape, a chilling reflection of human vulnerability.

Amid the chaos, a final breath of hope emerges: an improvised group of brave individuals comes together to resist. Not an army, but ordinary people transformed into heroes, organizing to fight back against the invasion. Among the ruins, their courage becomes the beating heart of the piece.

The installation features over 200 hand-crafted and hand-painted figures that bring every moment of the story to life—from the cold, mechanical invaders to the human faces conveying fear, bravery, and resistance. Every detail is designed to move the viewer and draw them into the drama of the narrative.

The experience is intensified through a range of technological resources: special effects, sounds of explosions and screams, dynamic lighting, and atmospheric smoke enveloping the visitors and making them feel part of the scene. Alongside the Monumental Vision, a screen plays a narrative video with original music, while a QR code offers access to a multilingual website with an audio guide, artistic commentary, character backstories, and the author's personal reflection.

In the end, after the intensity of the invasion fades, the visitor receives messages of hope and resilience—a reminder that even in the worst scenarios, unity, courage, and human dignity can make all the difference.

Altogether, The Final Countdown is a stunning and immersive experience that combines art, spectacle, and technology to deeply move and leave an unforgettable emotional mark on all who witness it.

WINDOWS TO INFINITY

The Final Countdown

A mysterious object in the sky marked the beginning of a new era for humanity. What started as a fascinating spectacle soon became a global nightmare: an alien invasion swept across Earth with unstoppable force.

One by one every city fell, and the human military was quickly overwhelmed. Yet amid the chaos, the leaders of the resistance emerged: Alex Rivera, a determined commander; Dr. Lena Zhou, a brilliant scientist; and Kai, an alien defector who revealed the technological secrets of his former masters.

With these new alliances and the development of hybrid human-alien weaponry, humanity began to fight back. In an epic final battle, the resistance destroyed the mothership, disabling the invaders' power.

Though victory came at a great cost and the world lay in ruins, humanity emerged more united than ever. The true triumph was not just in defeating the extraterrestrial enemy—but in overcoming their own internal divisions.

With alien technology now in their hands, the survivors began rebuilding the planet and looking toward the cosmos with hope.

The war was over, but a new era of reconstruction, unity, and exploration had only just begun.

ALEX RIVERA

He is the leader of the human resistance. A former soldier with a past full of struggles and sacrifices, Alex has a strong character and unbreakable determination. His many scars and intense gaze reflect the countless battles he has fought against the alien invaders. On the battlefield, Alex is a relentless strategist, willing to do whatever it takes to protect his people. With his rifle always ready, he represents humanity's last hope in the face of invasion.

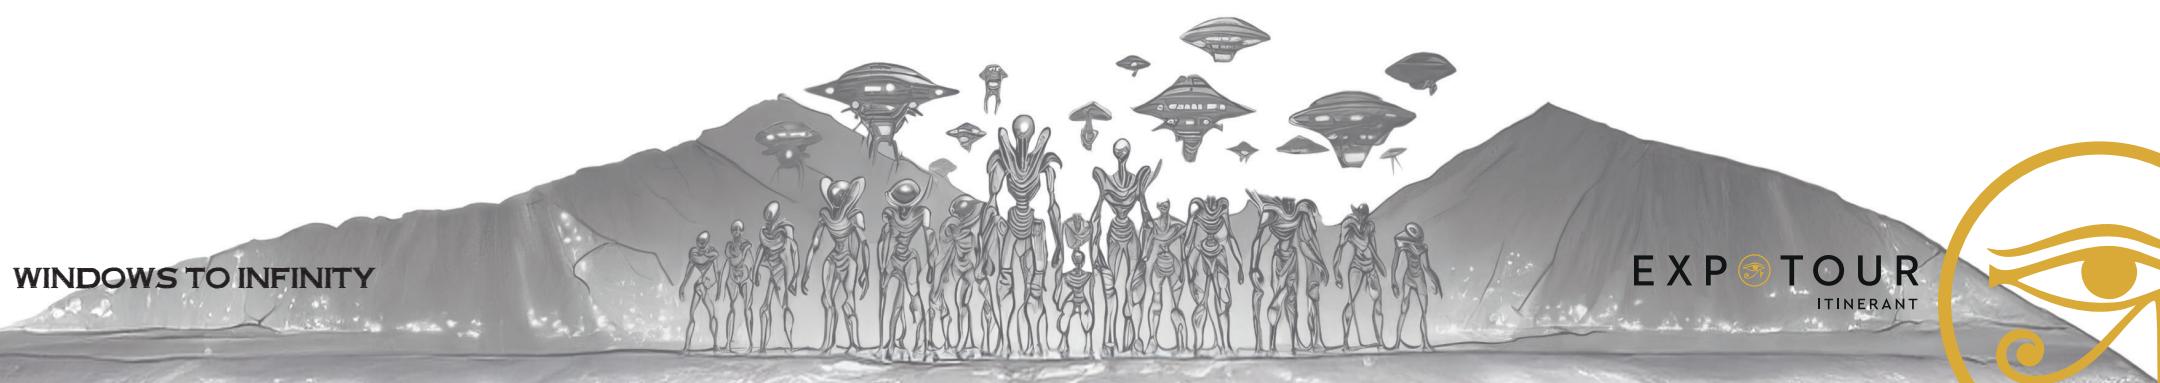

DRA. LENA ZHOU

She is the mind behind the resistance's scientific operations. Intelligent, calm, and decisive, she has played a crucial role in decoding the alien technology. Always equipped with her tablet or tech device, her focus and composure make her a pillar of the resistance. Her role is not only vital in the development of weapons and strategies, but also in making ethical decisions regarding the use of alien tech. Her eyes reflect both her brilliance and the sorrow caused by the losses she has endured during the invasion.

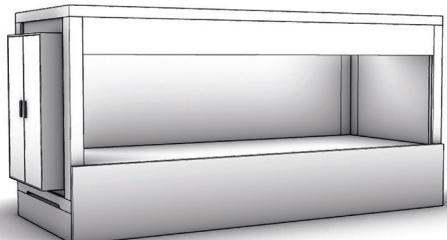

KAI

When he was young, his planet was attacked by a civilization from another galaxy. Kai, along with other valuable survivors, was captured by the invaders and indoctrinated to serve as a scientist. Upon seeing Earth devastated by the attackers he now helped, Kai remembered his own suffering, and his pain transformed into a fervent desire to aid the terrestrial forces to resist. Kai joins the Earth forces, contributing knowledge of enemy technology and how to counter it... and also finds in Alex and Lena the promise of a future free from war.

Edition The Experience:

Large containers designed exclusively for ample exhibition spaces that have wide doors and sufficient logistical capacity.

The Experience | Basic module

Technical Specifications

Module dimensions	6x2,40x2,70 m
Total height with bases	3,10 m
Panel dimensions	2x0,06x3,10 m
Total surface area	10x3,40 m
Total weight	900 kg
Weight per m ²	200 kg
Electrical power	3 Kw
Automation	Included

DMX LED lights	Included
Amplified audio	Included
Screen	External included
Graphics	2x3,10 m
Front sign	Included
QR code plate	Included
Smoke extraction	Necessary
Water and drainage	No

Special Effects

Wind	Included
Lightning	No
Storm	No
Waves	No
Natural water	No
Waterfalls	No
Rain	No

Holograms	No
Moving objects	Included
Fire	Included
Changing lights	Included
Fog	Included
Approx. N°. figures	100

Technical Accompaniment

Audio guide	Included
Video guide	Included
Music	Included
Video	Included
QR codes	Included
Travel guide	Included

Artistic Accompaniment

Characters	Included
Narrative	Included
Final messages	Included
Author's opinion	Included
Critical opinion	Included

Suitable for:

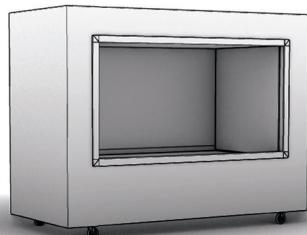

Children	Yes
Adolescents	Yes
Young adults	Yes

Middle age	Yes
Seniors	Yes

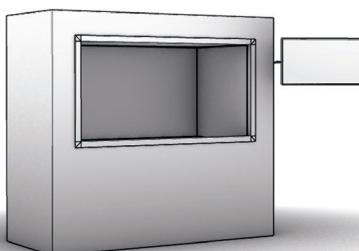

Edition The Essence:

A compact module made up of reduced-size containers and foldable structures that can adapt to any kind of room with doors measuring 1.20×2.10 m.
