What will the visitor see?

The visitor will immerse themselves in a virtual reality experience designed for all audiences: The Monumental Dimension.

In an area equipped with modules of 15 rotating seats, each person puts on virtual reality glasses and begins an unforgettable hot air balloon journey over three different worlds from the Windows to Infinity universe.

The approximately 10-minute experience transports the visitor to impressive scenarios that can be contemplated from the heights, with a feeling of calm and beauty.

- First stop: The Lost Island - An aerial journey that crosses the mysterious Tiger's Eye island and allows you to marvel at its giant stone skull.

- Second stop: Thorne Manor - A walk over the unsettling mansion of the Kingdom of the Eternal Night, surrounded by its chapel, its withered gardens and its mysterious cemeteries.

- Third stop: The Seven Wonders of the Ancient World - A unique recreation where the viewer is elevated face to face with the Colossus of Rhodes, where the balloon basket touches the pyramids of Egypt, and where the Hanging Gardens of Babylon are flown over in an impressive multisensory spectacle.

This experience was carefully conceived for people of all ages, avoiding sudden movements or dizzying sensations. Everything is designed so that visitors can enjoy the majesty of the worlds with serenity, on a virtual journey that combines beauty, calm, and wonder.
