## What will the visitor see?

The visitor will peer through a window to discover a spectacularly constructed diorama. In the foreground stands a gigantic galleon, rich in detail, immediately drawing the eye with over 150 pirates in full action. In the background, the giant skull of Lost Island spews colorful fire and jets of water from its mouth, while thick smoke pours from its nose, creating a truly striking effect.

On either side, the landscape features reed houses hanging from the mountain and floating on the sea. Waterfalls flow from the mountaintops, wrapping the scene in a magical atmosphere. Everything vividly and meticulously recreates an imaginary village that transports the viewer to the mythical Lost Island.

The experience is intensified by an array of special effects: shifting lights, enveloping fog, real waves on the ocean, and a combination of sound and visual elements that will thrill and immerse the visitors in this fantastic universe.

The piece is inhabited by more than 340 hand-designed and hand-painted figures, each contributing a unique level of realism and artisanal dedication. Every character brings the story to life, conveying emotion and detail in every corner of the scene.

In addition, next to this Monumental Vision visitors will find a screen playing a video with original narration and music. There, they can explore the audio guide, watch the video, listen to the music, learn the characters' backstories, read an artistic critique, and discover the author's perspective on the work.

And at the end of the story, the visitors are met with final messages filled with positive values, inviting them to ponder and offering much to think about beyond the artistic experience.

Altogether, it becomes an immersive experience that combines art, spectacle, and technology, leaving an unforgettable mark on every visitor.

## Tiger's Eye and the Secret of Lost Island

In an age of stormy seas and pirate legends, Isabella "Tiger Eye," a brave captain and heir to the fearsome Captain Black, embarks on a perilous expedition in search of her father's lost treasure. Guided by an ancient map, she leads her crew to the mysterious Lost Island.

With her sails her loyal companion Madeline "The Mermaid," whose secret love for Isabella runs as deep as the ocean. After overcoming traps and riddles, they discover, at the heart of a giant skull, the entrance to an underground lake where the mythical treasure lies.

But among chests of gold and glittering gems, they come to realize that the greatest treasure isn't material — it lies in the love that binds them, the adventure they've shared, and the strength of their bond. The legend of Isabella and Madeline is not just a tale of material riches... but an epic of courage, freedom, and eternal love.

CAPTAIN ISABELLA  
"Tiger Eye"

Bold and cunning, Captain Isabella stands out for her unmatched skill in battle and the keen perception that earned her the nickname "Tiger Eye." Rumors suggest she is the unacknowledged daughter of Captain Black, though no one has confirmed it. Isabella is a fierce leader, able to guide her crew with bravery, always in pursuit of victory — yet her fighting spirit hides a more personal quest.

MADELINE ROBERTS

Madeline, also known as "The Mermaid," is the untamed soul of the crew. Fiercely loyal to her captain, she harbors a secret love that defies the norms of her time. Her grace masks an unbreakable inner strength. Though reserved in many ways, her loyalty is unwavering, and her skill at sea is unmatched. The mystery of her heart and her free spirit make her a vital part of the crew.

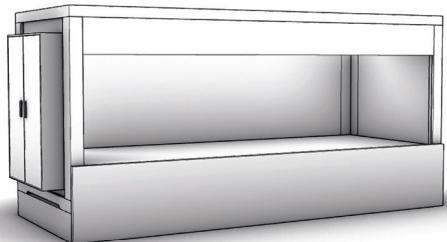

CAPTAIN BLACK

Captain Black is the embodiment of what it means to be a true pirate leader. With his characteristic eye lost in battle, his presence is as intimidating as it is respected. His swordsmanship is legendary, and his name inspires both fear and admiration across all corners of the sea. Black is a clever strategist, always one step ahead — but deep down, he carries a hidden burden only few people know.
