

ICE JOURNEY

Technical File Thematic Artistic Visions

**WINDOWS
TO INFINITY**

By Expotour Itinerant

What will the visitor see?

The visitor will peek through a window to discover a collection of unique dioramas: seven Artistic Visions that evoke landscapes and corners of nature from a deeply immersive perspective. Each piece is a work of art in itself; a detailed world that invites contemplation, and where every relief, texture, and scene has been created with a precision capable of awakening imagination and emotion.

More intimate than the Monumental Visions, these Artistic Visions are presented with fixed lighting and without moving effects, allowing the splendor of the work to speak for itself. The visitors immerse themselves in the visual richness of each diorama, where an infinity of details—mountains, rivers, valleys, natural reliefs—transform observation into a silent and reflective journey.

Each piece includes an audio guide that accompanies the entire collection, a personal narration by the author revealing the inspiration behind the artwork, an art critique providing context, and a video that connects the global narrative of the set.

Although part of a collection of seven pieces, each Vision can be displayed independently. This provides the flexibility to adapt the experience to different spaces and turn them into genuine windows to human creativity, transporting the viewers to memories, emotions, and inner landscapes.

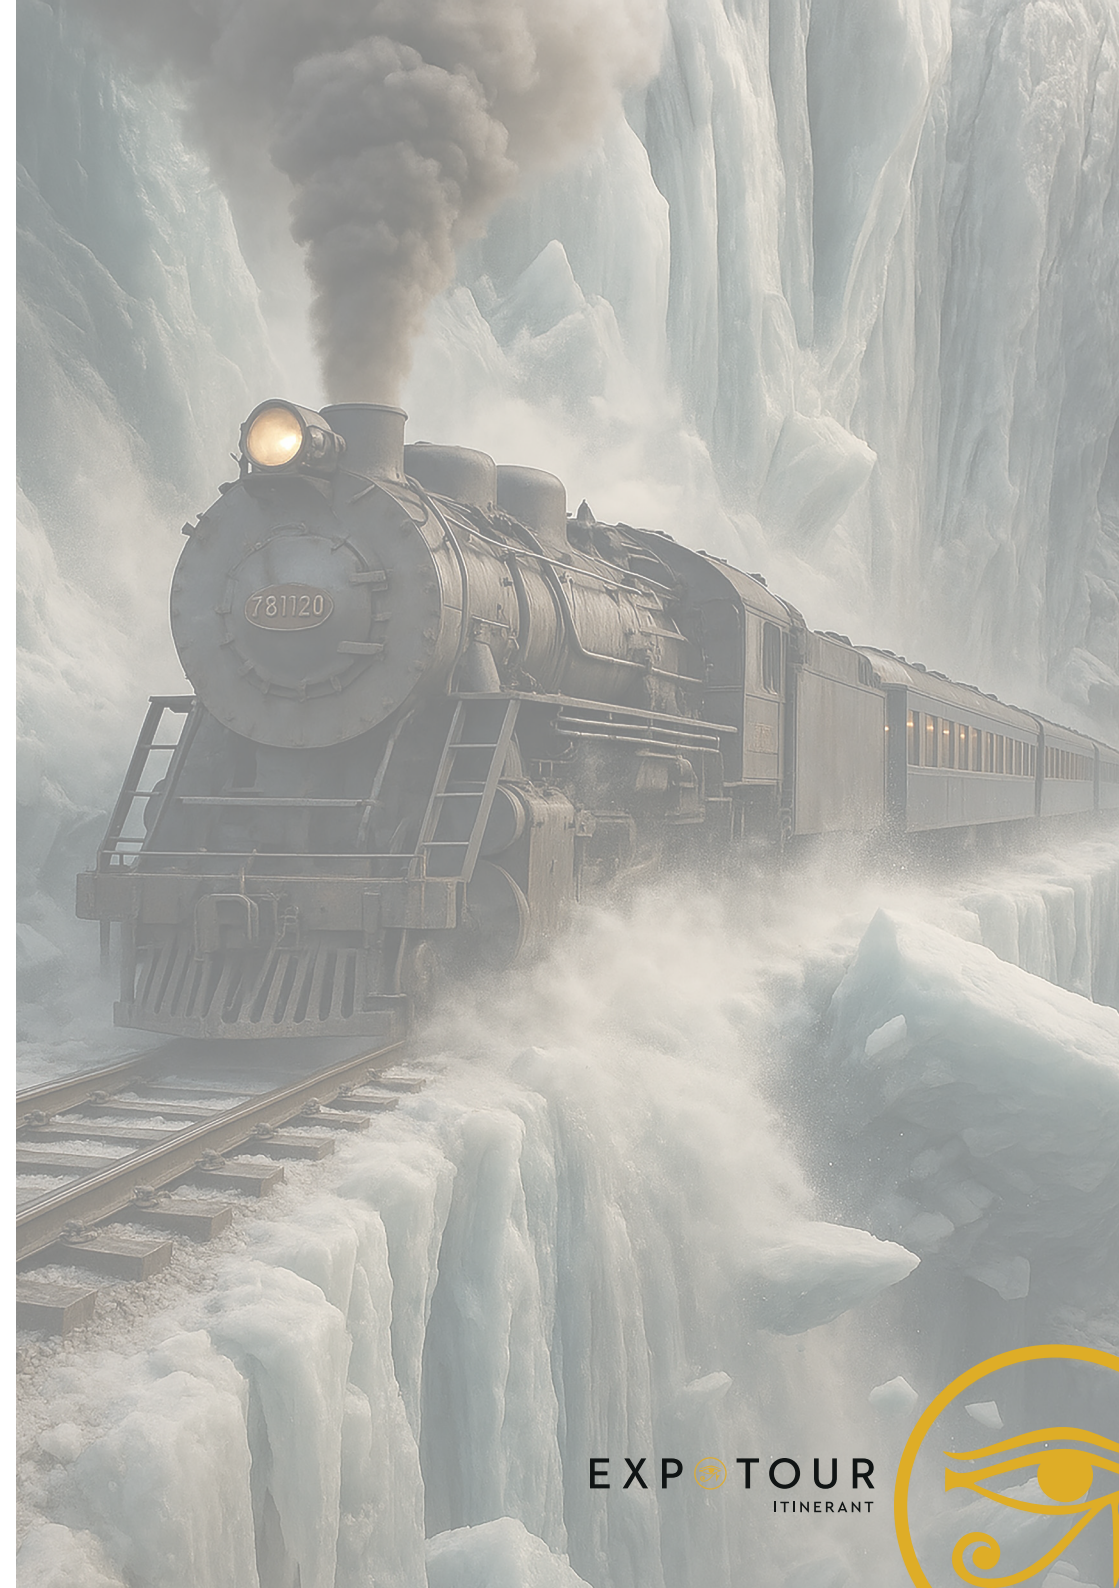

In the end, the Thematic Artistic Visions are much more than dioramas: they are a poetic and visual journey, a testament to how art can capture the majesty of nature and transform it into an intimate, contemplative, and unforgettable experience.

Author's Opinion

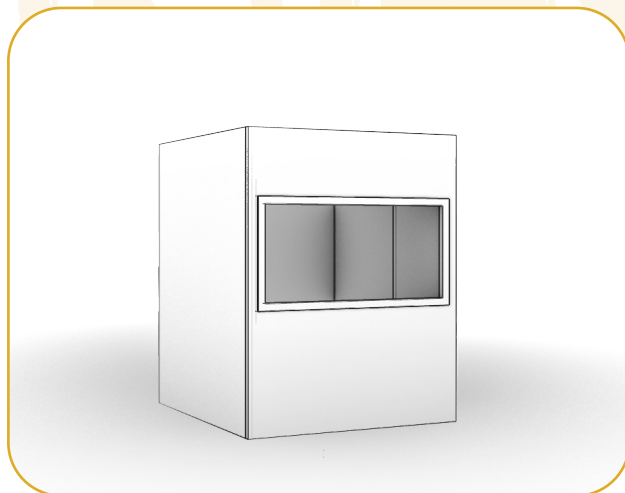

The Thematic Visions were the first to emerge, capturing everyday moments and the beauty of nature. For me, this is where pure art resides. Each of these visions has a deep purpose and its own narrative that connects with universal emotions.

"Ice Journey: The Struggle Against the Unyielding Cold" recreates the challenge and beauty of surviving in a frozen environment. Ice and snow serve as metaphors for human resilience in the face of adversity.

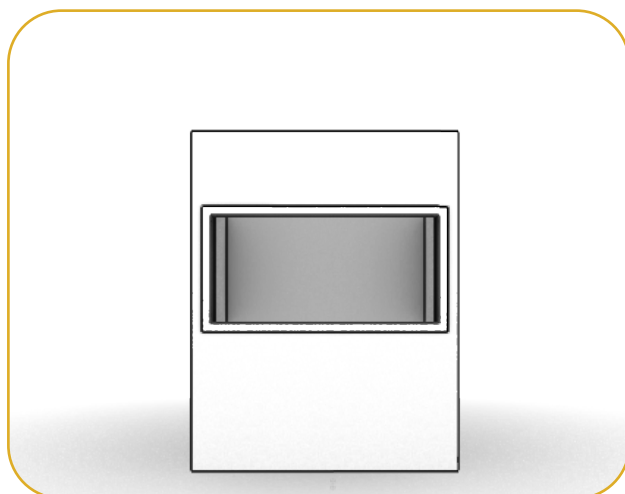

Edition **The Experience**:

Large modules designed exclusively for spacious exhibition areas.

Technical Specifications

Module dimensions	2,20x2,40x2,57 m
Total height with bases	3,10 m
Total surface area	2,20x2,40 m
Total weight	200 kg
Weight per m ²	50 kg
Electrical power	1 Kw
Automation	No

DMX LED lights	Included
Amplified audio	No
Screen	1 for the set
Graphics	1 ud
Front sign	Included
QR code plate	Included
Smoke extraction	No
Water and drainage	No

Technical Accompaniment

Audio guide	Included
Video guide	Included
Music	Included
Video	Included
QR codes	Included
Travel guide	Included

Artistic Accompaniment

Characters	No
Narrative	Collective
Final messages	No
Author's opinion	Included
Critical opinion	Included

Suitable for:

Children	Yes
Adolescents	Yes
Young adults	Yes

Middle age	Yes
Seniors	Yes

Edition **The Essence**:

A compact module made up of reduced-size containers and foldable structures that can adapt to any kind of room with doors measuring 1.20x2.10 m.
